

FLATLINE

Bladee

Nah

Nah

Cold-Cold Visions

(Oh, oh-oh)

Not enough (No, ha)

Do not deserve (Ha)

I wanted to (Bladee)

Until things occurred (Cold)

It's so absurd

It's so bizarre

There's something worse that I deserve (Oh, oh-oh)

It's all for real (Ha)

It's not a dream

A lot of things (Ha)

But it's not me (Ha, ha)

Dissolve for real

Acid and bleach

Just close your eyes, be close to me

I'd never lie (Despair)

I never want to see you cry (No, love)

I'd rather die

I fantasize, I flatline

I flatline

I flatline (No, love)

I never want to see you cry (Trust)

I'd rather die, I flatline (Cold)

I wake up every day in hate

Awake to hate (Hey)

And bad vibes (Cold)

My bedside, a fat line (Gone cold)

ER-EKG, a flatline

Goodnight and goodbye

Till next time

The monitor reads a flatline (Ah)

Shh

Haha

Cold-Cold Visions

(Sad but true, what I do to you)

It's sad but true

I find a way to sabotage everything between me and you

It's sad but true, it's sad but true (Woah)

I'm so embarrassing

So fucking disgusting, ha

It's sad but true, it's sad but true (I fled this country)

(I can't keep running, ah, ah, ah, ah, ah)

I live my life disgusting

I choose the way of suffering

Under the weight, I'm crushing (Crush)

And in a way, it's funny (Crush)

Hate that today is sunny

Hate that the next is coming

I don't want you to see me

I don't want us to be me
Cold Visions, bad feeling, Cold Vision
So distant, loneliest, so distant
Dark feelings, dark feelings, dark feelings (Ah)
Dark feelings, dark feelings, dark feelings (Ah)
Bad feelings, Cold Vision, bad feelings
So distant, loneliest, so distant (Ah)

I never want to see you cry (Trust)
I'd rather die, I flatline (Cold)
I wake up every day in hate
Awake to hate (Hey)
And bad vibes (Cold)
My bedside, a fat line (Gone cold)
ER-EKG, a flatline
Goodnight and goodbye
Till next time
The monitor reads a flatline (Ah)

Haha
