For Nothing

Bladee

Wake up in the morning (Take a knife and drain your life)
Looked at my phone, brushed it, it's boring
Dress up just for nothing
Doing what I'm meant to for nothing

Why did you come around me? I wanna know your motive
Why you getting so T'd if you can't even hold it?
T-Star D&G, I became the owner
Nothing in life is really free, yeah, I had to call it
Don't be projecting on me, do you mind?
I don't wanna be seen, is that a crime?
6 upside down, that's a 9
Dolce & G, on the rise
Backstab 'em down, caught 'em by surprise
Just talked to your friends, they gonna let it ride
Don't grow around me, pesticide
Had to follow my dreams, the wrong-wrong way
Let's switch around, see how you like it
I Mitsubishi off, she thought that I would chase it
You look confused as to why you're not gonna make it
Let's play a game of life, my dealer got the 8-bit
It's either me or you, I had to make arrangements
Can't trust in everyone, don't matter if you like it
They talk 'bout everything, I keep my business private
You stain my silk blood, drop your nose, girl, let me wipe it

Wake up in the morning
Looked at my phone, brushed it, it's boring
Dress up just for nothing
Doing what I'm meant to for nothing

People will whisper, they'll make their jokes, let them. They're all so small I can't even see them, I only see what matters

Bad adrenaline, oh they just say anything
Just know they'd do anything, to be in the spot you're in
Back to bed again, skin on me I shed again
Being in the head I'm in, I would need a better friend
