

For You

Bladee

Do it for you, Amen, never will I love again
I make it fly, raven, lay them to rest again
I call on you fake friend, I been knew that something was strange
I pop a blue, stay sane, I cop a juice blood red

I need special treatment, wouldn't wanna be them
Step on you like vermin, drain world, we renounce you
Bitch we purging, I'ma be a born again virgin
Ecco pull up in a coupe, it's swerving

Cam boy, keep it softcore
Drinking screwdrivers at the hardware store
Blow torch on the lock to the back door
Black and Decker [?] nitecore

Eat the night, I feel like Kirby, I'm burning
Riding in a Range like a derby, I'm first in
Heard your sus from a birdie, you lurking
Dirty, when I'm in New York I go to Jersey

Ziploc full of drywall
Put dry g'loss on my wrist, smell like chemicals
New nose, new soul, new skeleton
I'm with Alice, I'm never going back again

Do it for you, Amen, never will I love again
I make it fly, raven, lay them to rest again
I call on you fake friend, I been knew that something was strange
I pop a blue, stay sane, my cup of juice blood red

Do it for you, Amen, never will I love again
I make it fly, raven, laid to rest again
I call on you fake friend, I been knew that something was strange
I pop a blue, stay sane, I cop a juice blood red
