

## FUN FACT

Bladee

Cold

A lot changed since we changed the game, look how far we came (Wake up, FILTHY)

Chainsaw, split the whole terrain, this whole world a game

Rain fall from a lonely star on a sunny day

Drain star, and we standing tall over what we made

I was smart, and, either way, you still off in pain

Still smart not to make my way out the hole like Bane

Cold-

hearted, I killed myself time and time again (Too many times)

Full speed, make the city bleed, smoking dirty weed

I'm over going fashion week, walk in the Supreme (I'm in Supreme, ain't no fashion week)

Man, please, give me space to breathe, haven't slept in weeks (Yeah)

Cold visions wash over me, I will make you flee (Cold Visions)

Chase Bank out in Delaware, I don't really care

I'm with Lean, buying the Gucci store, it's like breathing air

Man, I'm twisted, we spin around like the funfair (Funfair)

Fun fact, that you're living in despair (Drain Gang)

I'm with Bladee like I'm blade running with a hundred racks

It's the return of the Batman, and Bane in his mask

Still off the opiates, itching like I got a rash

All these boys, they been stealing swag, put them in the trash

I don't care, 'cause I love it, eat out of our hands

We done changed up the whole game, put it in a chokehold

I know you wanna be us but we are just some weirdos

Two old heroes stuck up in this folklore

I wrote so many hits, I should have my own barcode

Yuppie on the yacht, hair gel all on my polo

Leandoer, Bladeer, you know this is no joke

Twenty on the guest list, bet I don't know those

Feel like we came up too fast (Cold Visions)

Find a new plan, yeah, raise the flag

Glorious in heaven, go ahead, raise the glass

Sadboys and D9, this for the fam'

Cold Visions
