

# Ghost Hands

Bladee

New Air Flight Ones  
I saw those  
I'm on trees like islands  
I'm bleeding, no violence  
No evil, just kindness  
Black diamonds, I'm broken  
Put a flame on his face now he's smoking  
I'm smoking on silence  
I'm down but I'm high like giants

Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands

King of the material realm  
Pulling up on 12+12+12  
I can't see myself  
I see my reflection  
Put you underwater you see your reflection  
Send him to the kingdom in the sky  
Make him live there  
See you in a crystal  
Time I mean it  
Soft hair, I've been using hair conditioner  
Only fresh air like an air conditioner  
Everything is warm when you live in a freezer  
Visions at dawn turn you to a believer  
Bladee is a leader  
God is forgiving  
When you're with me you forget that you're living

Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands

Energy barrier  
I'm an energy carrier  
I'ma buy her a chandelier  
Then go into the atmosphere  
I'm protected from evil  
It's in the air be my barrier  
And my shoes are from Gucci  
They cost 400 and I stand in them  
I'm like water, I'm very clear  
Mix the water with everclear  
Cause I miss you, you're never here  
But I bought it, I never fear  
I got armor of Nike gear  
I'm skywalker I disappear  
And my powers like ending near  
There's invisible spirits here  
Watch them fall in the sunlight  
Sunbathe in the sunlight  
Make them enter the shadow as if they only got one life

Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands  
Poison, doors open, got ghost hands
