

God

Bladée

We're the ones
(Who are you? Are you in another skin?)
(Who are you? Up to you)
Extra light
Turn it up

All the way around
A-A-All the way around (A-A-All the way around)
All the way around (All the way around)
A-A-All the way around (A-A-All the way around)

God is love is my drug
I'm yours, take me home
To you, extra light
Turn it up

(It goes like this) All the way around (All the way around)
(Like this, like this) A-A-All the way around (A-A-
All the way around)
(That's it, that's it) A-A-All the way around (A-A-
All the way around)
(That's it, that's it) All the way around (All the way around)
All the way around (All the way around)
A-A-All the way around (A-A-All the way around)
A-A-All the way around (A-A-All the way around)
All the way around (All the way around)

We're the ones
Number one, I'm on top upon the throne
And I wait for the fall
I come down, it's no way around it
In this life, gotta fly
Chase the bliss, oh, I can almost see it
Out of sight but in mind
Keep the gift in another life

(It goes like this) God is love is my drug
(Like this, like this) I'm yours, take me home
(That's it, that's it) To you, extra light
(That's it, that's it) Turn it up

All the way around (All the way around, we're the ones)
A-A-All the way around (A-A-All the way around)
All the way around (All the way around)
A-A-All the way around (A-A-All the way around)

We're the ones
(Who are you? Are you in another skin?)
(Who are you? Up to you)
In this life, gotta fly
