

## Hex

Bladee

I put a hex on your mind, you put a bless on my line  
I put a hex on your mind, you put a bless on my line  
You're my river, liquid and silver  
I put a check on your name, take more than half of your pain  
One second of your time for all of mine

Feelings again, blue night dreaming again  
Watching me, tryna copy me and my fam  
Fuck with SG and drain gang, Louis V locks in my chain  
I'ma reach down in the lake, foreign money coming in  
I don't trust you or your friend, I don't wanna go back again  
Money's frozen in my hand, it's frozen  
You don't tell me everything, just tell me anything  
Broken glass in my hands, you could sell me anything  
I walk a mile for your smile, it's embarrassing  
I put bleach in my drink, acid in my eyes and shit  
I'm feeling paranoid, like the walls is closing in  
Feel like I'm made of tin, lost my heart, it went missing  
Feel like I'm made of tin, lost my heart, it went missing  
Feels like I'm made of tin, lost my heart, it went missing  
Drain gang is a gathering, dripping of my wedding ring  
Better than I've ever been  
Lock eyes with a beautiful, girl and shes not scared of him  
I can be your skeleton, you can be my vitamin  
Blade slip out my hand and I bleed out  
Thaiboy in New York, bring the weed out  
Trashstar at the top in the hideout  
Drain Gang, got the knife like a boy scout

I put a hex on your mind, you put a bless on my line  
You're my river, liquid and silver  
I put a check on your name, take more than half of your pain  
One second of your time for all of mine
