

I Think...

Bladee

Dark outside (Yeah)
Uh-huh (Whatever)
Dark inside

This is what I really want, it is, I think (Mmm)
You think it mattered so much to me but it didn't (Nah)
One day I am here, the next I'm gone, extinct (Extinct)
I've become so very small, I shrink, it is

Pure love only, baby
Always is, always was
Make and break me, baby
Is this all, is this all I want

Maybe I could be the one for you, I wish
I wish I could play the sport, I hit, I miss
But I'm coming back, of course you do, know this
I come out of the abyss but then I sink

Sink into the, into, into
Dark I fade, like love I fade away
One day I'm here, the next I'm gone
I'm gone, away, that's tough
Pray, I pray for something
I pray all night every day, I pray (Please God)
Was it all for nothing, nothing's all
I'm gone, away, dissolve

So long (So long)
Overdue, the expiration date
Still stand tall
(But still ask for what)
Lift off, take away alot but there's still love
But for what? For what I forgot

This is what I really want, it is, I think (Mmm)
You think it mattered so much to me but it didn't (Nah)
One day I am here, the next I'm gone, extinct (Extinct)
I've become so very small, I shrink, it is

I know, I know, I know, I know
What goes up won't stay up
You find me, don't mind me
Love, love, love, sex and drugs

At the end, it wasn't worth much, not a thing
The duality of life, uh-huh, that's it
Say you wanna have some fun, fuck it, I'm in
Might as well live in a cage you take my wings

She cut my wings off, baby
Take and take, give give our love
Sunset, sunset me, baby
Give me up, God is love
