

Inferno

Bladee

Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah

It's a collision, a near death, don't fear death
In transmission we fear less, we sign checks
It appears we too blessed, passed the test
Tony Soprano with my bathrobe by the pool deck
Score, score, score, score, score, gear check
Don't worry 'bout my business, handle yours, don't need stress
Don't worry who gon' listen, making more, we talk less
I need sex, bikini tan line legs
(These are not good boys)

Let me rep my crest (Crest)
Just another day in the life, I guess (Crest)
AK-47, we performing under stress
It's a crazy world, L-O-L, I'm dead (Sick, crest, sick)
(Trench) Trench warfare (Yeah)
On the front lines, long hair, don't care
Must be suicidal if you think you stand a chance
Zero empathy when we advance (Zero empathy when we advance)
I'm pulling rank, we pulling up in tanks
We standing on the front
We pulling up in tanks, immediate response
The shield is very strong

Got insomnia for months
They hate what they not
And we too powered up
One in a million, the tanks are rolling up
This not what you want
God is very strong
The sky is coming up

No face, no case
No face, no case
No face, no case, no face, no case
No face, no case
No face, no case, no face, no case
No face, no case
No face, no case, no face, no case
No face, no case
No face, no case, no face, no case

I'm pulling rank, we pulling up in tanks
We standing on the front
