

## It Girl

Bladee

I spend a night (Okay)  
Far away on the other side, okay (Okay)

In this world, you gotta work to be an It Girl  
When you're done, let it go, you can do it  
8 hours in the dark, I'm in the Rainworld  
When the silence is so loud, it's our music  
Still have time for whatever I make it wish well  
We can talk about a plan, we can do it  
Stillwater in the world, keep it moving  
Bladee coming out the shell with a new skin

On my way down, the wrong way  
All the lights on me and I can't see  
It's lit all the way, okay (Okay)  
Far away, on the other side, okay (Okay)

In this world, you gotta work to be an It Girl  
When you're done, let it go, we can do it  
8 hours in the dark, I'm in the Rainworld  
When the silence is so loud, it's our music  
Still have time for whatever, I make it wish well  
We can talk about a plan, we can do it  
Stillwater in the world, keep it moving  
Bladee coming out the shell with a new skin
