

Keys To The City

Bladee

True essence of the D-9 enterprises, man
Key to the city, man

Oh, oh, secrets, killing me
Prada boots from Italy
Everything changed for me
Changed for me
It could do for you what it did to me
Look what it did to me
They care about me, now you into me

Gotta keep the party on it, but I'm rollin', rollin', rollin'
And I'm done with this shit you know it
Been gettin' money, I want you to show it
I got the key to the city
Twitter, at me, it's Bladeecity
It is me, just admit it
One to fifty just to kick it
Need to keep the party going
2019 it's undercover
Caught up, caught up in a bad moment, take it as a omen
Put a mask on my face, now I look like an emoji
Sign on the door, it said, "Drain members only"

I get high, been so greedy
I put myself first when you needed me the most
You can fool me so easy, put myself down when you needed me so much
Was it all for no reason?
I think about you, I think about us all the time
Clean the street with the bleach, and
Take my shoes off, walk with you some more

I gotta keep the party on it, but I'm rollin', rollin', rollin'
And I'm done with this shit you know it
Been gettin' money, I want you to show it
I got the key to the city
Twitter, at me, it's Bladeecity
It is me, just admit it
One to fifty just to kick it
Need to keep the party going
2019 it's undercover
Caught up, caught up in a bad moment, take it as a omen
Put a mask on my face, now I look like an emoji
Sign on the door, it said, "Drain members only"

The true essence, man
The source of the drain, man
The one and only
