Never Comin Down

Bladee

Never comin' down, never comin' down
Never comin' down, never comin' down
Blow it by the pound
Never comin' down, never comin' down
Never comin' down, never comin' down
High above the ground
Never comin' down, never comin' down
Never comin' down, never comin' down
Blow it by the pound
Never comin' down, never comin' down
Never comin' down, never comin' down
High above the ground

Why would I walk, bitch I can fly
Don't call me, I won't reply
Won't get service up here in the sky
Angels keep on flyin' by
Shawty say, damn you got some weed I can try?
She don't love me, she just love gettin' high
I'mma be livin' like this till I die, Yung God
32 degrees hangin' off of my neck
32 degrees all over of my chest
Iced out bitch and your nigga wanna flex
Better round up with a bullet proof vest
Me and my niggas go hard for the set
Clique full of real niggas Like Dipset
Hoes come through, It's a damn drip fest
I'm so blessed, blunts on deck, that's my southwest
Flyer than a bitch I don't need no jet

Never comin' down, never comin' down
Never comin' down, never comin' down
High above the ground
Never comin' down, never comin' down
Never comin' down, never comin' down
Blow it by the pound
Never comin' down, never comin' down
Never comin' down, never comin' down
High above the ground

Now I'm missing, so you won't see me around
She say she love me, but I'm never comin' down
When it's 4AM, my demons callin' out
We're gonna catch you in your dreams bitch so watch out
In and out of life, mixin' pills, I almost died
Creepin' up at night, me and Yung God say goodbye
All these parasites, on my line, I get them wiped out
They want to take my light away, I'm never comin' down

Never comin' down, never comin' down
Never comin' down, never comin' down
Blow it by the pound
Never comin' down, never comin' down
Never comin' down, never comin' down
High above the ground
Never comin' down, never comin' down
Never comin' down, never comin' down

Blow it by the pound
Never comin' down, never comin' down
Never comin' down, never comin' down
High above the ground
