Rainbow

Bladee

Guess it's Mecha on the beat
Ride with me in the black full of blankets (Yeah)
I could've had it
Oh, I didn't wanna have it
You don't believe it, how can I work the magic
I wanna see you baby, coming out of the ashes

Say a prayer
You should be the one to say it
Not for this world
But it's true on another layer
Just the kids from the lake
It feels like a prayer
Silver city
Never sleeps with the 3 awakened

Take the rainbow road
Put the world on hold
For a moment
Watch the world unfold
The warm gets cold
We could be like smoke
We could go up
Take the rainbow home
Take the rainbow road
Put the world on hold
For a moment
Watch the world unfold
The warm gets cold
We could be like smoke
We could go up

Take the rainbow road
Take the rainbow road
Take the rainbow road
Put the world on hold
For a moment
Watch the world unfold
The warm gets cold
We could be like smoke
We could go up

Ride with me in the black full of blankets
I could've had it
Oh, I didn't wanna have it
You don't believe it, how can I work the magic
I wanna see you baby, coming out of the ashes

Take the rainbow road
Put the world on hold
For a moment
Watch the world unfold
The warm gets cold
We could be like smoke
We could go up
Take the rainbow home
Take the rainbow road

Put the world on hold
For a moment
Watch the world unfold
The warm gets cold
We could be like smoke
We could go up
Take the rainbow road
Take the rainbow road
Put the world on hold

Take the rainbow road
Put the world on hold
For a moment
Watch the world unfold
The warm gets cold
We could be like smoke
We could go up
Take the rainbow road
