

## Reality Surf

Bladee

It's so- it's so ripe, we got fruit  
We got coms, salute (Yeah it's real)  
Put a concept on the feeling  
Take a word and change the meaning  
Only you, take the house, open the ceiling  
I don't know why I don't reality surf  
Reality surf, reality surf, reality surf, oh

When I'm in the fire  
Enemies closer than you  
Treat them in to pie  
Snakes leather in the spine, get the fruit  
Doing 36 in the car  
Everything related back to you  
I ain't never been the one to talk  
Cinderella, Cinderella, wear it if it suits  
Build it just to watch it fall apart  
Looking for the arrow when you shoot  
You take yourself seriously, stop  
Listen to your heart  
Mirror, mirror, the reflection of the law  
I just wanna show you something new (New)  
Everything is funny when you see it  
Everything in my life is a cartoon
