

# Redlight Moments

Bladee

Air Force, Drain colorway, black and gray  
Darkness, can't stay away, it's a holiday  
What pain do I choose today, I'ma contemplate  
Silicone world, it's all fake, let's play a game  
In the drain-way they all float, except my blood bros  
I tote big bags of smoke, can you help me roll back home  
They wanna know me now, that's a no  
Be like you, I can't be close, cause I can't go broke  
Dope, I'ma overdose, going comatose  
Can't hate on a ghost, in the night I go

Redlight moments we rolling the potent  
Going and going, going, I'm going  
4am and it's snowing, it's snowing  
Chain on me glowing, moon hit the ocean  
Walk away from me babe, in slow motion  
Rolling, I'm rolling, feels like I'm choking

Your bracelet's not clean, it made your wrist green  
Same people that's hating on me also wanna be me  
I can't see you like I'm Stevie, if I can't beat it, let it beat me  
If I can't eat the night, I'ma let it eat me  
If you can't leave you gon' lose me  
I don't wanna talk about no clothes and no music  
Smoking through the pack like it's Marlboros  
Before you can get in, scan your face like a barcode  
Look at me, I'm gone like it's stealth mode  
You can't hit my line no more, I got a new cellphone  
I'm playing poker but I got bad luck  
The numbers don't add up, the numbers don't add up  
I'm playing both sides, yeah I'm a bastard  
I know it don't matter, I want what comes after

Redlight moments we rolling the potent  
Going and going, going, I'm going  
4am and it's snowing, it's snowing  
Chain on me glowing, moon hit the ocean  
Walk away from me babe, in slow motion  
Rolling, I'm rolling, feels like I'm choking  
Redlight moments we rolling the potent
