

Know you, time to get to know you
Know you, know you
Just give me some time to get to know you

Just give some time
Just give me some time to get to know you
Just give me some time to get to know
Lying, I'm lying, I'm lying, I'm lying
Just give me some time to get to know you
Lying, I'm lying, I'm lying, I'm lying
I'm trying to trick myself
I'm lying, I'm lying to myself

What do you even mean, clean the street
Clean my, clean my feet, don't feel like me
I don't even feel like me, I don't even feel like me
I don't even feel like me, I don't even feel like me

Heard you wanna be like me, 30 pills in my Diesel jeans
Twist your head, I can entertain your fantasy
Death come 3 by 3, don't do friends, don't do enemies
Head down low, that's the strategy
Keep my key, gotta be focused on the ending
Two swords, I'm fencing, I don't wanna fight
I'm tired, I'm tired, I'm sick of being tired
I've seen all your past and it's gone, make it alive

Just give some time
Just give me some time to get to know you
Just give some time
Just give me some time to get to know you
Know you, know you
Just give me some time to get to know you
Know you, know you
Just give me some time to get to know you

You can't be like me, what do you even mean
Trash Star clean the street so I can creep, gotta clean my feet
I don't even feel like me, I don't even feel like me
I don't even feel like me, I don't even feel like me
What do you even mean
Trash Star clean the street so I can creep, gotta clean my feet
I don't even feel like me, I don't even feel like me
I don't even feel like me, I don't even feel like me
