

Big bottle of dirty water  
Onto the street, walk around with dirty Pradas, I feel like F1LTHY  
Gotta win something, just let me have it  
Just let me hold something, I'm not an expert

If you stand for nothing, what would you fall for?  
Fell through a trap door, turned to an actor  
Just let me try one time, that's all I ask for  
That's all I ask for, nothing too special  
If we could merge to one, then we could build something  
To recreate myself, I have to kill something  
If you would want me dead, I would be into it  
I just want your attention

Be my star, three wishes  
One that is you  
I'm almost gone, grey city  
Darkness falls again, one last time

Step on spiders in my Prada loafers  
Got them in Austria  
Windows open because I got claustrophobia  
Paranoid but I feel sober  
DG9 CEO striker, bloody Nikes  
Living dirty forever, trying to die nicer  
Deo freeze you, I'm a icer  
Dirty weed, it smell like rubber  
I've been workin' undercover  
I can't go out like a sucker  
Bloodless I don't wanna go there  
Run the city like it's Gotham  
Link ten bags, I had to lock 'em  
Virgin blood, I like it fresh man  
See three stars, I must collect them  
Evil calling, I neglect it  
ECCO2K, we talkin' to dolphins  
I won't talk to no imposter  
Quit this shit, I pulled the Joker  
Sit down with me, start it over  
Hot or cold, I'm coming closer  
I can't go out like a loser, I can't go out when it's sunny

Big bottle of dirty water  
I do the street, walk around with dirty Pradas, I feel like F1LTHY  
Gotta win something, just let me have it  
Just let me hold something, I'm not an expert
