

## So What

Bladee

Chainsaw on your throat, all the words come out  
Cocaine in my throat that my nose dripped down  
Going with the flow, with the wind, go out  
Coming from the dark with my scars, no sound  
I be in the park off a pill, so what  
You did this a year, but for me, for life  
Drain Gang CEO, I'm the ice king now  
I don't give a fuck, on my way back down

I'll survive a snake bite, I live in the late night  
I can see the hate rise, smoking on the grey skies  
I went to hell 8 times, now I got a sick mind  
I know that you want mine, heard it through the grapevine  
I don't know your star sign, I been going snow blind  
I don't need to slow down, put me in a ghost realm  
I am going rogue now, zip lock for the low down  
Codeine in my blood fam, shouts out to the shield gang

Chainsaw on your throat, all the words come out  
Cocaine in my throat that my nose dripped down  
Going with the flow, with the wind, go out  
Coming from the dark with my scars, no sound  
I be in the park off a pill, so what  
You did this a year, but for me, for life  
Drain Gang CEO, I'm the ice king now  
I don't give a fuck, on my way back down

Don't know how to show love, please don't get your hopes up  
You might get your soul crushed, closed up like a rose bud  
I just got my throat cut, hope I don't get cold blood  
Now I'm going ghost, feel like Phantom of the Opera  
Shifting my persona, codeine in my soda  
Slipped into a coma, wish I never woke up  
Eversince, we sold out, people say they know us  
Margiela loafers, but I know he's a poser

Chainsaw on your throat, all the words come out  
Cocaine in my throat that my nose dripped down  
Going with the flow, with the wind, go out  
Coming from the dark with my scars, no sound  
I be in the park off a pill, so what  
You did this a year, but for me, for life  
Drain Gang CEO, I'm the ice king now  
I don't give a fuck, on my way back down
