

That Thing You Do

Bladee

That thing you do
That thing you do

Blood drips from my eyes, I don't know where to hide
You lie all the time
They're lies that I can't buy for free, you leave me constantly
When I am most in need

Running, running like a greyhound
If you tell me lay down, you know that I will stay down
RIP my life, I'm smoking napalm
RIP my life, I'm smoking napalm, tell me who you wait on
RIP to life, I'm gonna stay gone
Can't hang with a peon, things you do to me, making me wrong

Girl, that thing you do, that thing you do
That thing you do to me, that thing you do
You do it constantly, that thing you do
That thing you do to me, that thing you do
(That thing you do, that thing you do)
(That thing you do to me, that thing you do)
You do it constantly, that thing you do
That thing you do to me, that thing you do

I'm bleeding heavily, you're my injury
Execution, get on my knees
Give me something, please, give me what I need
Show me something real
I'm bleeding heavily, you're my injury
Execution, get on my knees
Give me something, please, give me what I need
Show me something real

Girl, that thing you do, that thing you do
That thing you do to me, that thing you do
You do it constantly, that thing you do
That thing you do to me, that thing you do
(That thing you do, that thing you do)
(That thing you do to me, that thing you do)
You do it constantly, that thing you do
That thing you do to me, that thing you do
