

Trial

Bladée

Is it this, this is not it, I'm falling off again
Pull a code red, upside down head, it's not all bad
On the timeline, I don't make sense
Add it up, make it make sense, add it up then
Add it up, make it make sense, make it past tense
I'm on offence, that's my defence, that's my defence
Add it up, make it make sense, make sense
Let me don't be myself, let me don't be myself

I went too far, they want me exiled
I went too far, I'm gonna be exiled
I went too far, they want me exiled
I went too far, I'm gonna be exiled

Fading away

Is it this, this is not it, I'm falling off again
Pulled a code red, upside down head, it's not all bad
On the timeline, I don't make sense
Add it up, make it make sense, add it up then
Add it up, make it make sense, make it past tense
I'm on offence, that's my defence, that's my defence
