

# UNDERSTATEMENT

Bladee

Ah, ah (What? What?)  
Like, like, like  
Like, like, like, like

To say I feel some type of way would be an understatement  
True say, I think I passed away but we on vacation  
Truth is I feel some kinda hate pointed in my direction  
To you, man, I just wanna say I hope you feel better

(To say I feel some type of way would be an understatement)  
(Truth is I feel some kinda hate pointed in my direction)

Still feel your presence even even even when no one no one no ones around  
You were you were you were always on my mind  
A passing moment, half a second my direction's in the corner of your eye  
It's more than enough for me to be immortalized  
Still feel your presence even even even when no one no one no ones around  
You were you were you were always on my mind  
A passing moment, half a second my direction's in the corner of your eye  
It's more than enough for me to be immortalized

Your favourite songs getting old, the same story being told  
Over and over and over again  
Too many times in a row, the same lesson I know  
The same lesson I know  
I know I know  
To holy lights we exposed  
We start shining in gold  
Golden golden golden  
Too many fights in a row, there's no shame to let go  
Shame to let go

Bleed my way, count my days  
Hide my face, need my praise  
Leave this place, lead my way  
To end my chase, rest my case

It could have been a lot of stuff but it just wasn't us  
The very thought of how you operate; I'm filled up with disgust  
I live and die for the cause, nail me to the cross  
Take your pity off, maybe listen up

I don't care very much, just about enough (I don't care)  
Yeah, what? Bet they know what's up with us  
Gravity very up, won the World Cup  
F the world, what? F the world, what?  
I don't care very much, just about enough (I don't care)  
Yeah, what? Bet they know what's up with us  
Gravity very up, won the World Cup  
F the world, what? F the world, what?

(Gravity very up, won the World Cup)  
(What? What? What? What?)  
(Gravity very up, won the World Cup)  
(What? What? What? What?)  
F the world, what? F the world, what?  
What? What? What? What?

(Gravity very up, won the World Cup)  
(What? What? What? What?)  
(F the world, what? F the world, what?)

Never read the reason as a sign  
Keep this little secret in your mind  
Final destination is the sky  
Caterpillar dreamt that it could fly
