

Strawberry lip gloss, sunglasses from Oakley  
High like Fuji, I wonder if you're lonely  
I wish you would touch me, touching on my touchscreen  
Carbonate my water, put it in the engine  
You go to sleep now, time to make my tea now  
Play with my sword, but my axe is with me now  
An elixir, looks like a lighter  
Five thousand points, do I look like a liar  
Energy field, the blue steel  
I'm unreal, I'm unreal, I'm unreal, I'm unreal  
Blue steel, I'm unreal, I'm unreal  
Got some red monkeys to go with my bapes  
My eyes heavy, I'm smoking grapes  
Swag overload, Bladee came up  
What I'm smoking on fuck your brain up  
I'm on killer mode, you are hopeless  
Float on top of life like a Lotus  
My gear is glowing and I think she notice  
I'm in the club and I'm gone but I'm focused  
I'm unreal, I'm unreal, I'm unreal  
I'm unreal, I'm unreal, I'm unreal
