

# Velociraptor

Bladee

Endless blocks  
Headless touch  
Night so soft  
I can't get enough  
Graceful fall  
Watch me be crushed against the rocks  
Watch me be crushed against the rocks  
Gravity dawns  
Like the doubt that I ever was

High born 9 Lord, this not even my final form  
Walk a mile in my shoes, try it on  
Through the trials and tribulations we still going on  
I forgave you, the past it is by gone  
Make a list of the missed, it's a mile long  
Tryna deal with the feels but they pile on  
Energy is a wave you can ride on  
Venomous is the lust, python  
Tryna see what I need leave the light on  
If it bleeds then it's real is what I'm on  
If it bleeds then it's real, that's what I'm on  
Throw the signs in the air for the icon

Testing, testing, testing, testing  
Trying  
Trashing, trashing  
Trashing, crushing  
Fly  
Passion, passion, trashing trash go flying  
Passing, passing, testing, seeking  
Fly

Hateful thoughts  
Nature's laws  
Perfect flaws  
In a way we're the only ones  
Clenching jaws  
Frost won't thaw  
Painful parts  
Find a way to be funnier

Testing, testing
