Waster

Bladee

Fucked up for days, can I catch a break?
Just wanna go away, make it go away
Just running through the days, running through the pain
Bring my life to waste, was it all a waste?
Was it all a waste? Was it all a waste?
I'm smoking so much dope, can I take I break?
I know you know I know I made a mistake
I'm just trying to touch the real but it's plastic, fake
Plastic face, tragic on the way
Only way I make it through the day is, I can't say
I can't say, sorry, I can't say
Sorry mom, I know you hate to see me this way

Fall in love and jump
Are you drunk? I was acting dumb
Pills under my tongue, I feel numb
Don't like anyone, empty, fill my cup
I fucked up, cut me up, my cut
Catch you out, you're slumped, he's a bum
Drain Gang, yeah, we on, I'm the chosen one
The fuck you thought? Get back what I love
I make the call, are you slow? Reap the risk I sow
