

## Wings In Motion

Bladee

Crystalline bliss from within  
And everything clears up, you're still there  
And more than that  
Tears of yours, still there  
And more than that too  
It feels broken  
Wings in motion

Wings in motion  
Far from before, I'm on my hands again  
The lonely four, again, again  
All through the night, it feels broken  
Wings in motion, wings in motion  
Far from before, I'm on my hands again  
(And you're still there too)

Crystalline bliss from within  
And everything clears up, you're still there  
And more than that, tears of yours, still there  
And more than that too  
It feels broken  
Wings in motion
