

Winter

Bladee

Someday I will die, but my name will survive
You stay true you'll never die, Thaiboy Goon will never die
Always tryna reach higher, than I did before
I need you now I just want more, I just want more
Imma take over the whole world
Take over everything
Take over jealousy
Attain to something else

Everything has been said, remember when my eyes were red
I've been gone, been dead
I hear the streets calling me
Voices in my head
When will I ascend
Didn't see me then now they see, worship me instead
Sometimes I am dead
I hear the night calling me, winter in my head

Everything has been said
I hear the night calling me, winter in my head
