

# You

Bladée

It's like the first time

It's like the first time, fall for you all over again  
Feels like the first day, first day of being in love  
It's like the first time, wisteria  
Not about anything, nothing at all

Everything you want and a lot more  
Play until that final warning, I play too much  
I have everything, I can't take more  
I love having fun forever, Gloria  
One for the money, two for the show  
Three for the glory, when I'm with me I can never be alone  
One when it rains, two when it snows  
When it's cold, endless flowers grow, grow, grow, grow  
When it rains, two when it snows  
When it's cold, endless flowers grow, grow, grow, grow

It's like the first time  
Wisteria  
It's like the first time  
Wisteria  
It's like the first time
