

Back to Life

Blake Lewis

Here we go,
Let the music bring us back to life
Start the show,
Let the rhythm move you into the night!

It's obvious, if we take two more steps,
we might just fall over the edge
It's dangerous, if we do not listen to our hearts,
we might be next
So don't stop, let that record play
Put that needle on, turn it up a little loud
Play your favorite song
Bring it on, 'cause we won't waste another moment
It's our time

Here we go,
Let the music bring us back to life
Start the show,
Let the rhythm move you into the night!

Get your back on the wall,
Leave your feeling go,
Let your heart take fault for the night
Here we go,
Let the music bring us back to life!

Harmony, connecting us together with the music and the beat
This chemistry, electricity it's coursing between you and me
See, I BELIEVE in taking chances
I BELIEVE in love, forever ending romance
This music it's the love
Bring it on, 'cause we won't waste another moment
It's our time!

Here we go,
Let the music bring us back to life
Start the show,
Let the rhythm move you into the night!

Get your back on the wall,
Leave your feeling go,
Let your heart take fault for the night
Here we go,
Let the music bring us back to life!
To life - back to life!
