

# Freak

Blake Lewis

The world stops as you walk in  
Every head turns to you  
Strutting everything God gave you  
The strobe lights bounce off the walls  
Pulls you in as they spin  
Revolving everything around you

You can't stand still  
You can't handle  
Your primal instinct is to move  
And I need to know ya  
The beat is so strong  
Inside your eardrum  
When you and I lock eye to eye  
Then it's all over

It's in the way that you move  
You move your body so smooth  
Music consuming every inch  
To make you do what you do  
Heart rate pumping so fast  
Your b.p.m I will match  
Cross-fade connection  
Hey DJ, play our selection, come on

Move your body like a freak  
Move your body like a freak

Step back and touch yourself  
From your hips to your lips  
You know that I like watching  
I might hold back for a while  
While you sweat and you get  
The fix that you've been wanting

You can't stand still  
You can't handle  
Your primal instinct is to move  
And I need to know ya  
The beat is so strong  
Inside your eardrum  
When you and I lock eye to eye  
Then it's all over

It's in the way that you move  
You move your body so smooth  
Music consuming every inch  
To make you do what you do  
Heart rate pumping so fast  
Your b.p.m I will match  
Cross-fade connection  
Hey DJ, play our selection, come on

Move your body like a freak  
Move your body like a freak  
Move your body like a freak  
Move your body like a freak

It's in the way that you move  
You move your body so smooth  
Music consuming every inch  
To make you do what you do  
Heart rate pumping so fast  
Your b.p.m I will match  
Cross-fade connection  
Hey DJ, play our selection, come on

Move your body like a freak  
Move your body like a freak  
Move your body like a freak  
Move your body like a freak
