

She Loves The Way

Blake Lewis

You're spinning in circles,
While you catch your breath,
Your tongue wrapped around me.
Your heart will misguide you,
As you spread your love,
It sends me to sweet release.
Your body language excites me,
Evokes emotion inside of me,
Swollen in your grasp,
I can't last,
You set me free
You set me free

You're spinning in circles,
While you catch your breath,
Your tongue wrapped around me.
Your heart is consumed with emotion,
All I want you to do baby is step into my ocean.
We're gonna do it wild,
We're gonna be doing it raw,
Every time I saw you I was like baby please come on,
I get down on my knees begin you baby, baby please yeah

Cause she loves the way I make her feel,
And she loves the way I feel inside yeah.
She loves the way I make her feel,
And she loves the way I feel inside yeah.

You know she real... (3x)
You know she really loves yeah
Ooh she loves
You know she loves

Flip, flip, flip it like that. Baby,
Turn over and lie on your back.

Cause she loves the way
She loves the way I make her feel

She loves the way I make her feel
She loves the way I make her feel inside yeah

She loves the way I make her feel yeah
You know she loves the way

Come on one more time sing it,
She loves the way I make her feel
She loves the way I feel inside
And she loves the way I make her feel yeah
