

The Stars, They Shine for You

Blake Lewis

Across an ocean
Above the sea into your arms
Bodies in motion
This is where love will find us
Under the stars
I'm over the moon
Oh beautiful girl
All of the stars, they shine for you

You are mine
She whispers softly to the universe
Lost at sea
Our wanderlust

Across the desert
Under a palm tree canopy
There lies a treasure
Waiting for us to find it
Under the sun
I'm all over you
Oh beautiful girl

All of the sun, it shines for you

You are mine
She whispers softly to the universe
Lost at sea
Our wanderlust

My love
We've traveled through eternity
Now our journey's just begun
We create our destiny

Across an ocean
Above the sea into your arms
Bodies in motion
This is where love will find us
Under the stars
I'm over the moon
Oh beautiful girl
All of the stars, they shine for you
