This Is My Now

Blake Lewis

There was a time I packed my dreams away Living in a shell, hiding from myself

There was a time when I was so afraid Thought I'd reached the end Baby that was then I am made of more than my yesterday's

This is my now, and I am breathing in the moment But I look around I can't believe the love I see My fears behind me, gone are the shadows and doubts That was then, this is my now.

And I have the courage like never before, yeah I've settled for less now I'm ready for more Ready for more

This is my now, and I am breathing in the moment But I look around I can't believe the love I see My fears behind me, gone are the shadows and doubts That was then, this is my now. (2x)

This is my now
