VERSE 1

I'll be the teacher
You be the student
All you gotta do is watch and learn
Well be making love until we burn
Ima set your body on fire
Ima take you higher
Than you've ever been before
Your body I will explore

HOOK

Lets make a movie
Gonna light your body up and yell action
You can be the star
Ima work you all night
Lets make a movie
It's time to play your part
And give it all you've got
I never wanna stop

Verse 2

Don't worry bout your makeup
I like you natural
Let that sweat drip down your neck
I like it raw like that
Second scene is up now

Your moment, don't lose it, stay on it
I know what you fantasize
I can see it in your eyes
Tonight is your night
