

# Patient

Blake McGrath

Right now in this moment  
I see things so clear  
Everything we've been through  
Brought us both right here  
But now I know what love is  
And you gave that to me

Sometimes I get busy  
Don't make time to say  
I see everything you  
Do for me each day  
Here's my chance to give you  
The love you gave to me

I've known from the day we started  
You'd take care of my heart  
You move through the changes  
Thanks for being patient  
You comfort me in my sorrows  
We've been through the highs and lows  
You never skip the pages  
Thanks for being patient

When I'm sad, you show me a smile  
When I'm mad, you give me space  
When I'm tired, you prop me up  
Take the wheel when I lose my way  
I finally know what love is  
I wanna give it back to you, ooh-ooh

When I'm loud, you stay calm  
When I'm low, you wipe my tears  
When I'm scared, you hear me out  
And you validate my fears  
That's what love means to me  
I'm gonna give it back to you, ooh-ooh, yeah

I've known from the day we started  
You'd take care of my heart  
You move through the changes  
Thanks for being patient  
You comfort me in my sorrows  
We've been through the highs and lows  
You never skip the pages  
Thanks for being patient

You've taught me how to take my time  
That all we need is to truth the you and I  
'Cause the on the hardest days  
Love still finds a way  
To be patient and kind

I've known from the day we started  
You'd take care of my heart  
You move through the changes  
Thanks for being patient  
You comfort me in my sorrows

We've been through the highs and lows  
You never skip the pages  
Thanks for being patient
