

# Shut It Down

Blake McGrath

I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down

Don't waste no time  
Rev up the engine baby  
I know what you like  
Suited fresh in Balmain  
My stance, my stride  
I know you want it when I  
Hit the floor like yeah  
Watch me go like yeah, watch me

DNA like a diamond (diamond)  
VIP, we shining (we shining)  
Sign my name 'cause I'm buying (yeah)  
Cars, clothes, fine dining (let's go)  
DJ calling my name (hey)  
Get up outta my way (hey)  
'Bout that time  
To see me do my thing

We 'bout to get it  
We 'bout to get it now

I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down

I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down

Gimme that, gimme that green light, go  
I put it down on the floor  
Wait, stop, bring it back once more  
Round and round like a rodeo, uh  
Body sweat dripping through my clothes  
Take a look, killing every pose  
Three in row  
Maxing out, it's time to go, like

Flashing lights, all angles work  
Flashing lights, all angles work  
Flashing lights, all angles work  
Flashing lights, all angles work

Flashing lights, all angles work  
Flashing lights, all angles work  
Flashing lights, all angles work  
Flashing lights, all angles work

DNA like a diamond (diamond)  
VIP, we shining (we shining)  
Sign my name 'cause I'm buying (yeah)  
Cars, clothes, fine dining (let's go)  
DJ calling my name (hey)  
Get up outta my way (hey)  
'Bout that time  
To see me do my thing

We 'bout to get it  
We 'bout to get it now

I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down  
I came to shut it down  
Shut it down, down
