

Sway

Blake McGrath

Sometimes there'll be branches
That we will have to climb on to
And the farther we go out
I know what I will hold on to
Sometimes there'll be towers
Upon which we are forced to stand
And no matter what the winds say
Know that I will hold your hand

I just wanna sway
Like this forever
Over mother natures land
From the stardust to the sand
I just wanna sway
With you forever
Shift our weight, come what may
We will sway

Let the branch break
I know I'm save within your arms
Before I have hit the ground
You catch me like a fallen star
Let the ground shake
We'll just tiptoe on a broken floor
'Cause no, we don't need a stage
You are all I need and more

I just wanna sway
Like this forever
Over mother natures land
From the stardust to the sand
I just wanna sway
With you forever
Shift our weight, come what may
We will sway, oh yeah

Baby I don't need this home delivered
Got it all right where it counts
So let the rain come down again
And dare to take us out
Still our feet stay on the ground

I just wanna sway
Like this forever
Over mother natures land
From the stardust to the sand
I just wanna sway
With you forever
Shift our weight, come what may
We will sway

I just wanna sway (I just wanna sway)
With you forever (With you)
Shift our weight, come what may
We will sway
