

# Whisper

Blake McGrath

Can we find a place?  
Where the world fades away  
Tell me your secrets  
I want to know you better  
Blow the candles out  
So everything stops  
Shorten the distance  
Can we get even closer?

Nothing matters but this  
Lock your hand in mine  
Can't move from this moment  
I wanna freeze the time  
Your breath on my neck  
Your hands on my chest  
Tell me everything  
Till there's nothing left

I just wanna hear you whisper, oh  
I just wanna hear you whisper, oh

No words left to say  
Your beautiful face  
Touch of your skin, you're drawing me in  
Let's make it last forever  
No, don't go away  
I know it's scary to let down your guard  
But here intertwined  
Your heart beating with mine  
I still want you closer

Nothing matters but this  
Lock your hand in mine  
Can't move from this moment  
I wanna freeze the time  
Your breath on my neck  
Your hands on my chest  
Tell me everything  
Till there's nothing left

I just wanna hear you whisper, oh  
I just wanna hear you whisper, oh  
I just wanna hear you whisper, oh, oh yeah  
I just wanna hear you whisper, oh, oh-oh-oh

Can we can get closer (can we shorten the distance, baby?  
Yeah, I need you closer (I still need you closer)  
Shorten the distance, baby (baby, closer)  
Can we intertwine?

I just wanna hear you whisper, oh  
I just wanna hear you whisper, oh  
I just wanna hear you whisper, oh  
I just wanna hear you
