

Casanova

Blake Rose

Doctor doctor, look what I've done
Stick me in a house and tell them I'll run
I'll run for the hills if I ever try to fall in love again
Watch me set this city on fire
If they ever let me out of their sight
I'll stay till the world goes down if I keep the upper hand

If I could go back, I wish somebody said

Hey now, Casanova
I don't wanna mess you up
But trust me, if you love her too fast
She won't ever love you back
You're coming in hot like Arizona
No, I don't wanna freak you out
But maybe if you love her too fast
She won't ever love you back (Love you back, my love)

Doctor doctor, tell me what's right
'Cause I've been up and down every corridor twice
Tryna make it out but this merry-go-round, it never ends
Yeah, I watched my friends start shacking up fast
Thought I should find somebody or I'm gonna be last
But fuck that noise
That only left me hurt again

'Cause honestly I've been so lost in my head it hurts
If I could go back, I wish somebody said

Hey now, Casanova
I don't wanna mess you up
But trust me, if you love her too fast
She won't ever love you back
You're coming in hot like Arizona
No, I don't wanna freak you out
But maybe if you love her too fast
She won't ever love you back (Love you back, my love)

She'll never love you back, my love
She'll never love you back, my love (Oh no, no, no she won't)
She'll never love you back, my love
Yeah, I wish that somebody told me
She'll never love you back, my love (Yeah, if you love)
She'll never love you back, my love (If you love her too fast, no)
She'll never love you back, my love

Hey now, Casanova
I don't wanna mess you up
But trust me, if you love her too fast
She won't ever love you back
You're coming in hot like Arizona
No, I don't wanna freak you out
But maybe if you love her too fast
She won't ever love you back (Love you back, my love)
