

Never Let Go

Blake Rose

Your taste keeps pulling me close
But your face keeps telling me no
Pull the breaks when we're getting it on
Then we wait till the moment is gone
So baby tell me what you want me to say
Cause I know you've been feeling the same
But you turn away when I walk in the door
It's like I know you less when you're loving me more

Baby how do you know?
Don't you know that we could be something you know
Yeah don't you notice?
We could watch a world go by or open up a bottle of wine

Baby If you want this you gotta say so
Cause I could be the one that you never let go
Never never let go
Never never let go
I could be the one that you never let go
Honey if you don't wanna let your love show
Then I could find way so you know that I won't
Ever ever let go
Never never let go
I could be the one that you never let go

I left my jacket in the back of your car
So I can see you when I'm picking it up
Cause I don't want a ghost hanging over my head
Tryna analyze every word that you said
I've already been there and done that too much
It's always the way when one's scared of love
So why don't you rip the bandied and see
What this life could be like with me
Like with me

Baby If you want this you gotta say so
Cause I could be the one that you never let go
Never never let go
Never never let go
I could be the one that you never let go
Honey if you don't wanna let your love show
Then I could find way so you know that I won't
Ever ever let go
Never never let go
I could be the one that you never let go
