

Use Me

Blake Rose

Love love love love love love
You know I want you like no other
With that sun dress flowing in the summer
You crave somebody like me, ooh-ooh
And this town's been ready to haunt you

I gave you
More than you could ever
Me and you
We're supposed to be together

I see the hunger in your eyes
I'll fix your appetite
Just use me, anytime you like
Use me, anytime you like
Use me, use me, use me tonight
You look like I've been on your mind
I'll make you feel alright
Just use me, anytime you like
Use me, anytime you like
Use me, use me, use me tonight

So run, run, run, run quicker
So they can never catch us if we slip up
Everybody thinks that they know better
And I crave you, ooh-ooh
And you crave somebody to slack me to

I gave you
More than you could ever
Me and you
We're supposed to be together

I see the hunger in your eyes
I'll fix your appetite
Just use me, anytime you like
Use me, anytime you like
Use me, use me, use me tonight
You look like I've been on your mind
I'll make you feel alright
Just use me, anytime you like
Use me, anytime you like
Use me, use me, use me, use me tonight

(Ooh-ooh-ooh-ooh)
Oh, oh yeah, so baby come on and use me (Ooh-ooh-ooh-ooh)
Yeah, why won't you use me, use me, use me all night? (Ooh-ooh-ooh-ooh, ooh, ooh)

I see the hunger in your eyes
I'll fix your appetite
Just use me, anytime you like
Use me, anytime you like
Use me, use me, use me tonight
You look like I've been on your mind
I'll make you feel alright
Just use me, anytime you like

Use me, anytime you like (Why won't you)
Use me, use me, use me, use me tonight
