Drink on It

Blake Shelton

Hey girl, hey where ya goin'? Come back and sit back down You look too good to be heading home so early now You say you gotta work tomorrow Got a lot on your mind Let me buy another round Girl I think you and I should just

Drink on it, put our heads together and think on it Maybe later on we can sleep on it But for right now Girl we just need to drink on it

We can talk rocket science Jesus or politics How your boyfriend cheated on you Man he sounds like such a prick I could use another whiskey And your cosmo's gettin' low While we're trying to figure out The next place we should go

We can drink on it Put our heads together and think on it Maybe later on we can sleep on it But for right now, girl we just need to drink on it

This place is closing down But I don't wanna quit Gotta good thing going girl Lets find out what it is

And drink on it, your place or mine Girl we can drink on it Dust off a bottle and drink on it Feels like we're doin' something right Let's find a corner of the night Where you and I can just

Drink on it, put our heads together and think on it Maybe later on we can sleep on it But for right now Girl we just need to drink on it

Might make a memory that we won't forget So lets just drink on it, yeah, mm, drink on it
