I Thought There Was Time

Blake Shelton

I knew something was the matter It really needed my attention And I had planned to look into it someday But I was busy making money I wanted you to be proud of me Now I wish I could turn the clock back someway

I thought there was time

I never thought that you would leave me I always thought that I could find you Somewhere near a phone to answer when I call Now you have my full attention Now you're all that I can think of This is not what I expected at all

I thought there was time I thought there was time

Are you even on this planet Can you see these pretty flowers Or am I standing here just talking to the wind How I wish that I had told you How I wish that I had shouted I love you I love you I love you back then

I thought there was time I thought there was time I thought there was time I thought there was time
