

No Body

Blake Shelton

Dixie cup martinis
Second one's a freebie
Happy Friday afternoon
That neon sun's rising
I'm sitting here admiring
The summer dress it's shining through

Had just enough to tell you the truth

Don't wanna scoot the boots with nobody
Get straight tequila drunk on nobody
Wrap these arms around no body
No body but yours
Don't wanna shadows dance with nobody
Slide some cotton off of nobody
Don't wanna wake up kissing no body
No body but yours

Honeysuckle talking
Last call on me walking
Out there to a checkered cab
B-line to your condo
Conway on the stereo
Girl, I'd love to lay you down, down, down

Don't wanna scoot the boots with nobody
Get straight tequila drunk on nobody
Wrap these arms around no body
No body but yours
Don't wanna shadows dance with nobody
Slide some cotton off of nobody
Don't wanna wake up kissing no body
No body but yours

Don't wanna hold nobody
Lay eyes on nobody
Love up on nobody

Don't wanna scoot the boots with nobody
Get straight tequila drunk on nobody
Wrap these arms around no body
No body but yours
Don't wanna shadows dance with nobody
Slide some cotton off of nobody
Don't wanna wake up kissing no body
No body but yours
Don't wanna wake up kissing no body
No body but yours
