

## How Much More

Blanca

The sparrow's never hungry  
Cause You always provide  
You give the rivers water so they can run  
You give the stars their fire so they can shine  
They're Your creation oh but I'm Your child I'm Your child

How much more  
Will You give us  
All Your love  
How much more  
Will You come through  
You always do  
All the flowers in the wild  
Birds in the sky  
You give them what they need  
So how much more  
Will You take care of me

Yeah we are only human  
And Your ways are higher than ours  
But even a father gives his son the best  
Won't offer a stone when he's reaching for bread  
And if our broken hearts can love like that  
In all their mess

How much more  
Will You give us  
All Your love  
How much more  
Will You come through  
You always do  
All the flowers in the wild  
Birds in the sky  
You give them what they need  
So how much more  
Will You take care of me

Even in the moments  
When I may not understand  
I know that You go before me  
It's all in Your hands

How much more  
Will You give us  
All Your love  
How much more  
Will You come through  
You always do  
All the flowers in the wild  
Birds in the sky  
You give them what they need  
So how much more  
Will You take care of me
