

Steady

Blanca

I'm all over the place
And I tend to get in the way, yeah
Feels like I'm in outer space
Get it together, get it together

I get so emotional, high-low
Take everything personal but You don't
I don't want to do this on my own, I let it go
Hold me together, hold me together

Your love, it settles me
The rock under my feet
You keep me, keep me steady
You are my gravity
The one thing holding me
You keep me, keep me steady
You keep me... keep me steady
You keep me... keep me steady

When I'm falling apart
I tend to put up my guard, yeah
But You break through to my heart, oh-ooh
And put me together, You put me together

I know I get emotional, high-low
Take everything personal but You don't
I don't want to do this on my own, I let it go
Hold me together, hold me together

Your love, it settles me
The rock under my feet
You keep me, keep me steady
You keep me steady
You are my gravity
The one thing holding me
You keep me, keep me steady
You keep me... keep me steady
You keep me... keep me steady

Even in all of my mess
You see my best
Your love is running over
Yeah, it's running over
Even when I try to run
You don't give up
No, You get even closer
You get even closer
Even in all of my mess
You see my best
Your love is running over
Yeah, it's running over
Even when I try to run
You don't give up
No, You get even closer
You get even closer

Your love, it settles me

The rock under my feet
You keep me, keep me steady
You keep me steady, You keep me steady
You are my gravity (gravity)
The one thing holding me (holding me)
You keep me, keep me steady
You keep me... keep me steady
You keep me... You keep me steady

You keep me steady, keep me steady, keep me steady
You keep me steady, You keep me steady
You keep me steady, keep me steady, keep me steady
Keep me steady
You keep me... keep me steady
