Fences

Blanche

Fences over the stares
Oh, we're violent
Winter, suffering place
Going away

Empty thoughts, dream golden
Through the green
Sun takes over my empty routine

I give

Find a way to your heart
Make us realise
Run away from all fights
Let us free your mind

Fences right where it starts
Where life ends
Whispers, fluttering chance
Fading away

Empty roads I'm holding
Through the wind
Sun dance over my empty routine

Find a way to your heart
Make us realise
Run away from all fights
Let us free your mind

Find a way to your heart
Make us realise
Run away from all fights
Let us free your mind

Find a way to your heart
Make us realise
Run away from all fights
Let us free your mind

Find a way to your heart
Make us realise
Run away from all fights
Let us free your mind

Make us realise
Let us free your mind
