

What This Town Needs

Blanche

what this town needs is a little bit of dignity
said the man whose teeth teeth had the gleam of an old piano's
keys

what this man needs -- well it seems to me --
is to have somebody take his hand and show some sympathy

'cos i don't feel right
how can this town sleep at night?

what this woman needs is someone to look her in the eye
might be nice for her to see somebody else cry

what this town needs -- well it seems to me --
is to sunk that sorrow from the souls and drop the people to th
eir knees

'cos i don't feel right
how can you sleep at night?

what this church needs is some sinners who still believe
would you believe?
i can't believe...
do you believe?
I do believe
do you really believe?
i really do believe

'cos i don't feel right
oh how can this town sleep at night?
