

Two-faced anonymous truckers  
On the edge, on the verge  
Venting a spleen, hiding behind  
Zeros and ones - virtual screen  
Should only be hiding  
Head hung from and in shame

Correct me if I'm wrong  
Correct me if I'm wrong  
Chastise me, un-baptise me  
Correct me  
But not till the end of the song

Since the new world began  
Where you threw in your coat  
Am I right in thinkin'?  
Governors are off, comments spat  
Apparent impunity, the dog off the leash  
Thank your God, no Orwellian thought police  
Are you watching, waiting, watching  
Waiting, are you hating?

Correct me if I'm wrong  
Correct me if I'm wrong  
Chastise me, un-baptise me  
Correct me  
But not till the end of the song

Two-faced anonymous truckers  
On the edge, on the verge  
Venting a spleen, hiding behind  
Zeros and ones - virtual screen  
Should only be hiding  
Head hung from and in shame

Correct me if I'm wrong  
Correct me if I'm wrong  
Chastise me, un-baptise me  
Correct me  
At the end of the song

Correct me if I'm wrong  
Correct me if I'm wrong  
Chastise me, un-baptise me  
Correct me
