

## God's Kitchen

Blancmange

God ain't in my kitchen, and god ain't in my room  
God ain't anywhere I've been  
I'll tell yeah, I think we're through

Ain't over here, ain't over there  
Where... my gonna find that man

He can be found, he can be found  
He might be over there  
He might be underground

God ain't in my kitchen, and god ain't in my room  
God ain't anywhere I've been  
I'll tell yeah, I think we're through

I looked over here  
I looked over there  
I can't find that man

Ring after six  
Ring after six  
He might be in  
He might be under the ground

Look over there  
Look over here  
I can't find that man

He can be found  
He can be found  
He might be over there  
He might be underground

God ain't in my kitchen, and god ain't in my room  
I'm gonna find that man if it takes all night  
I'm gonna leave no stone unturned

Ain't over here, ain't over there, I can't find that man  
I looked around, he can be found  
He might be over there, I think he's underground

God ain't in my kitchen, and god ain't in my room  
God ain't anywhere I've been, I think we're through

Ain't over here, ain't over there, tell me where I'll find that man  
I looked around, ring after six, he might be in real late

God ain't in my kitchen, and god ain't in my ro-ooh-oom  
God ain't in the lampshade, I think we're safe
