

I've Seen The Word

Blancmange

I've seen people laughing in churchyards
Screaming and shouting in my, in my backyard
And I don't know where they're going to
And I don't care if you, if you don't know

And I've seen words written in clouds above
Never told me that I have lost your love
I said I'd take more care of you
It never stopped the sky and me from feeling blue

I've seen the word
I've seen the word
I guess you've heard
I've seen the word

And I've seen people laughing in pain
And I've seen people crying in the rain
And I've seen people laughing in pain

And I've seen the word
I've seen the word
I guess you've heard
I've seen the word

I've seen
I've seen the word
I've seen the word
I've seen the word
